Foraker Supports the Resolution.

NAMES OF CONSULS WITHHELD

Because Their Reports of Cuban Affairs Might Lead to Their Massaare.

WABHINGTON, May 10.—Another stirring debate on Caba occurred in the senate today. It was of the give and take order, with sharp parliamentary fencing. The main specifies of the day were made by Senators Forsker of Chio, Cannon of Utah, Lindsay of Kontons and Tolk of Massachusetts. It was the first speech of any length made enate, and in addition to this, the Ohio senator is one of the Cuban sub-com-

motion and branched off into unexpected channels.

Mr. Vest of Missouri said he had seen statements to the effect that three members of the dominities on foreign relations had wisited the state department and had access to the evidence sent by the United States consuls. Why was it that three senators had this information and the senate does not have it?

Mr. Morgan answered that three senators on the committee had been entered as sub-committee to the President and secretary of state to confer on the Coban subject. They had received certain information and the injunction was laid upon them that the name of General Lee was not to be used in councer the with the information.

"The reason given for this," said Mr. Morgan, "was the fear that the collicials who gave the information would be massaucied. Another reason was that we had no war vessels ready to meet the massaucied. Another reason was that outbreaks of vicinas people, ready to massaucre."

"Was this statement official that a

we han no war vessels savely ready to massacre."

"Was this statement official that a massacre might ensue," as'ed Mr. Wiltie of California.

"Yes, ollicial," responded Mr. Morgan. Mr. Vest, by firther questioning, brought out the fact that the President and the secretary of slate hal requested that the names of consuls sending the information; should not be disclosed. Mr. Foraker had been one of the subcommittee to visit the state department. So far as he was concerned he said no restrictions had been placed on thin, oxcept as to the une of names of consuls and places.

Mr. Vest, addressing Mr. Foraker, said: "I call attention to the attement of the guttleman from Alabanas that the President and secretary of state desired that names of consuls should not be given, as it would involve their assassination. Is that it?

"Not in that language," replied Mr. Foraker, "but I was suggested that the

was quite a neual course.

Mr. Hoar pointed out that it was usual to withhold the names of comenis, when the dictosure might result in a demand for their recall.

"I am one of those senators who want an early vate on this resolution." Mr. Hoar went on. "I am especially desirous of getting it out of the way, he cause there is other important business ready for which this special session of congress was called and for which the business and the labor of the country are anxiously waiting."

Mr. Gallinger spoke of the probable conflict between the tariff bill and the Ouban resolution.

Mr. Cannon of Utah, after an intense denunciation of the "mad dog" Weyler, recalled a "sentiment written by a senator under a picture he had seen of the Redeemer in New York. The money changers are in the temple," and each that was what he thought when he heard the speeches for the "commercial interest" in the sanate. Patting sarcanic stress on the quoted words, he declared "the money changers are in steample of human liberty."

If this nation could not stand alone without the help of monarchies of Enzope; if it could not curvice without sacrificing manhood for the sake of souring investments of foreign capital, it had come to tottering old age, and God would blot it out as he had other failures. The country needed not so much a tariff bill or curvency reform as it did greater unity. Nothing would so unite the country as a declaration that monarchy should not oppress the neighboring countries. His only objection to the recountry as a declaration that monarchy should not oppress the neighboring countries. His only objection to the resolution was that it did not go far enough. The United States should us sabiled a protectorate over Cubs and hold it mail the island was able to the American should not the second of the sake and hold it mail the island was able to the American should be successed which the sonator from Massachusetts would seed to the American should not the failed was able to the American should not the sake and the sonat

ing ones, even unto death, and we will collect damages from Spain for your estate after you are gone. You ask for bread, for liberty, and we will give you a lawoult against a benkrupt mon-archy."

Mr. Lindsy followed Mr. Cannon. He believed, he said, that the United States should have recognized the believed he said, that the United States should have recognized the believed his percent of the season of t

Mr. Vest, addressing Mr. Foraker, Mr. Vest, addressing Mr. Foraker, and restrictions had been placed to the gentleman from Alabams that the President and secretary of state desired that names of consults should not be given, as it would involve their sentition. Is that it?"

"Not in that language," replied Mr. Foraker, "but it was suggested that the disclosure of agmes might do moram than good and possibly lead to violence."

"And now we come to the serious quastion," continued Mr. Vest important that the guntleman from Alabams that the president fact that they may be seasesinated if their names are protected? Must we he told that they may be seasesinated if their names to see, that our consults officially and the same and to withhold the names of consults. Mr. Foraker said that the President felt that there should be a reserve in giving the sources of information. It was quite a neual course.

Mr. Har pointed out that it was anal to withhold the names of consults when the disclosure might result in a demand for their recall.

Special Notice.

Smith Bros. respectfully wern the public sgainst unprincipled druggists who offer a sportonardice as Dandorff Pomade, 'under their signature. This is simply a species of robbery, and the man who commits it is on about the same mental level as the petty largenist, or the small first hide who relieves people's pockets of their handkarchies. There is no more despicable heigh of light as a competitor than the creature who is willing to stead a living from the genius of his fallow.

Kindly use that each bottle has on the

of his fellow.

Kindly see that each bottle has on the label "SMITHS" Dandroll Pomada," and don't be guiled into buying something they may tell you is just as good. For dandroll, failing hair and itching scalp nothing on earth is as good as Smith's Dandrolf Pomade.

Completion of the Valley Road to Kings' Capital-The Day's Program.

isturday, May 22d, will be a great day in Hanford. There will be a deal celebration, the occasions being the fourth anniversary of the birthday of "Baby Kings" and the completion of the Valley railroad to the county seat. The track of the competing line has reached Hanfard, and the unterprising neonle of track of the competing him the cauche flanford, and the enterprising people of that town intend showing that they are as capable of appreciating a good thing

Ilanford, and the enterprising people of that town intend showing that they are as capable of appreciating a good thing as is Fresno.

The celebration promises to equal if not surpass the one given here when the Valley road entered Fresno. As a starter 200 gines will be fired at sturies. At 0 o'clock there will be a "thrilling shibition" by the Hanford fire department. At 10.30 o'clock there will be an industrial parade, with Shierill Buckner as grand marshal. In the alternoon Senor Chiwones imported from Tamale, and will give an exhibition of buildighting. In the ovening there will be an "filuminated bleyche parade" and a ball. That's enough tun in one day to satisfy any resonable man.

Of course there will be people at lianford from all parts of the valley, and Fresno will be particularly well represented. There's the greatest of good feeling between the people of the two towns, and the steel rails laid by the Valley road company will draw them together still closer, socially as well as commercially.

Eight hundred railroad tickets have been sent to Fresno for distribution among those who wish to attend the celebration. Of this number 350 are in the hames of Secretary Shanklin of the Hundred Thousand Cuite, 350 are held by the secretary of the Chamber of Commerce and 100 are for the use of the willing. ded Last Evening.

Wies Maude Pierce and S. S. Parsons were married at 8,30 o'clock last evening at the residence of the bride's parents, Mr. and Mrs. C. S. Pince, on the corner of 1 and Sacramento streets in this city. The ceremony was performed by Rev. F. D. Seward of the Presbyterian church, in the presence of a number of relatives and intimest friends of the contracting parties. Miss Mac Pierce, a sister of the bride, acidd as bridesmand, and Fred D. Prescott was best man. The rooms were beautifully decreated for the occasion.

Following the ceremony, refreshments were cerved on an inclosed platform in the garden, which was brillantly flumn sated with electric lights. Here the hours were spent until the arrival of the 12,50 train, on which Mr. and Mrs. Parsons went to Southern California. There will spend a honeymoon of two weeks there and then will go to California take up their recidence.

The bride is the accomplished daughter of the well-known homber merchant of this city. The groom is a member of the Hulthe-Parsone Company, and he will have charge of the firm's branch store in Oakland.

The Northern Team Much Stronger
Than When Here Before.
The baseball game that was to be played next Sunday between the California Markets and the Fresko Revun Licaks was canceled by Manager Woldenberg Sesterday. Instead there will be a game between the Morceds and the Kryumicas. Woldenberg received a challenge from the Merceds and manager, A.k. L. Silman, yenterday, and it did not take him long to decide to accept.
The Merceds have played here twice and were beaten on both occasions by the Repunicans, but Manager Silman sayebe has strengthened his team elnes then and that his players will make it warm for the Freeno boys. To prove the faith that he in him he suggested that the game be for \$40 a side, and as Woldenberg isn't short on faith either he wired Silman to hring along his boys and his bonde. The battery of the Merceds will consist of Dowet and Arcan, a strong pair, and with their team otherwise strengthened the game between them and the Reproductans cannot fait be an interesting one.

Denied by the Sadiers.

Mr, and Mrs. Sadier of Malaga called at the Republican office yesterday to make a statement in regard to the story of the woman who claimed to have been insuited at their house last Friday right, which was published in yesterday's Refuglican. They say there is absolutely no truth in her charce that she was inhulted. On the contrary, the erratic conduct of the woman was such that she was ordered to leave the house on Saturday morning. Justica St. John was questioned last evening concerning the woman, and said that while she struck him as being excentions have as quite bright and evidently helleved she had been ill used. As she had not seen the person, however, whom the nistend with having; made the indecent proposition be advised her not to prosecute the person she can be corted, became his identification might be more difficult than she imagined.

When she came down the waste to appear as a witness in the United States court in the case of the Propie was that each of the Propie was the result of counterfeiting. There is some esspicion that the may have been spirited away to present verifying in the case, but doubt is east on this theory by no one knowing that Garmer had innential friends to aid him. Officers are making a thorough rearch and no che has yet been discovered.

They are quite certain the threa women did not leave by train, so the conclusion is that Mies Winslow is either hidden in town or has been taken to some point in the country.

The Damage Not So Great. The Damage No: So Great.
Captain Frank Barrett, speaking of
the damage to the Ohio Mining Company's dam by rosson of high water,
expressed himself as follows to a Enruenican reporter: "The damage was not
one-quarter as greatus reported in the
uppers, and fant therefore not a bit
discouraged over the matter, I am So
years old and have yet to learn what
it is to be discouraged. We shall be
